

Lake Macdonald Dam Improvement Project

Commencement of limited Sunday work hours

Dear Neighbour,

We're writing to let you know that select activities critical to progress of cofferdam construction will occur between 6:30am – 4:00pm Sundays, from 19 October 2025 until the cofferdam structure is complete.

To minimise disturbance, no piling, hammering, or truck haulage will take place on Sundays.

Our team will focus on lower-impact tasks such as moving the barge or other equipment, maintaining machinery, and setting up the site for the week ahead. These activities are essential to keep the project running efficiently during standard working hours.

We are committed to keeping noise and inconvenience to a minimum and appreciate your patience and understanding as we complete these important works.

If you have any questions or concerns, please don't hesitate to contact us.
