

Lake Moogerah

Play it safe

Our rangers regularly patrol our lakes, parks and recreation areas. However, they can't be everywhere to help you so it is important to plan ahead and play it safe when visiting.

Before your visit, please:

- check our recreation and safety notices at seqwater.com.au
- know what activities are permitted and where
- carry the right safety equipment and first aid kit
- familiarise yourself with our access rules and policies.

Protect our water supply

Our lakes are also our water supply. To protect our drinking water please:

- leave the facilities as you found them and do not damage any property, wildlife or plants
- place litter in the bins provided
- leave your pets at home (dogs on leash areas excepted) – dogs and other domestic animals can disturb the wildlife that live in our natural areas.

Serious aquatic weeds like water hyacinth, salvinia and cabomba are very invasive and are able to reproduce from even the smallest of fragments or seeds. Help protect our waterways from damaging weeds by:

- cleaning and drying anything that came into contact with the water, especially any visible mud or plants
- eliminating water from all equipment before transporting it anywhere, as the water may contain plant fragments or seeds
- not placing plants, fish or other animals into a body of water they did not come from.

Visit Lake Moogerah

What to do at Lake Moogerah

Moogerah Dam is located on Reynolds Creek near Boonah. The dam provides irrigation supplies to landholders adjacent to Reynolds Creek and also supplies water to Warrill Creek and Warrill Valley farmers through a series of diversions.

Seqwater is the one of the few bulk water providers in Australia that manages open catchments, allowing the community to enjoy recreational activities on the dams and lakes that supply our drinking water.

The dam and recreation facilities are open to the public seven days a week, from 5:30am to 6:30pm (September – April) and 6:00am to 5:30pm (May – August).

We respectfully acknowledge the Traditional Owners of the lands and waters around Lake Moogerah and Elders both past and present.

At Lake Moogerah you can enjoy:

- BBQs and picnics
- playgrounds
- camping (at private campgrounds)
- walking and running trails
- swimming (in the designated swimming area)
- canoeing, kayaking and rowing
- sailing
- fishing (permit required)
- motorised boats
- water skiing, jet skiing, wakeboarding and tubing.

Picnicking, BBQs and Playgrounds

You can enjoy a picnic at Fred Haigh Park (off Moogerah Connection Road). The park has great facilities including picnic tables, shelters, free BBQs and a playground.

Dogs on leash

Dogs on leashes are permitted only in Fred Haigh Park. They must remain on a leash at all times. The areas surrounding our lakes are home to an abundance of native wildlife. You can protect them by controlling your dog and not letting them disturb the wildlife that lives in the area.

To protect our drinking water, please do not allow your dog to enter the lake, foreshore area or boat ramp. Bring the necessary equipment with you to pick up and dispose of your dog's waste in the bins provided.

Other visitors may be uncomfortable or frightened around dogs - please be considerate of others enjoying the park area with you.

Boating

Boating is a very popular activity at Lake Moogerah for fishermen, nature lovers and those who enjoy the thrill of water skiing or jet skiing. Motorised and non-motorised watercraft are permitted on the lake. Please observe the 6-knot speed limit in the heavily timbered, southern arms of the lake.

For your safety and to protect the riparian areas around the lake, boats and vessels are only to be operated from designated launch points. There are two boat ramps located at AG Muller Park (off Muller Park Road).

Please be courteous to our neighbours. Much of the land surrounding the lake is private property. Do not launch, retrieve or beach on land around the lake, other than at signed, designated recreation areas.

All activities on Seqwater lakes are covered by the Boating Regulations set by Maritime Safety Queensland (msq.qld.gov.au). Please keep a safe distance from swimmers and paddlers.

Water skiing, jet skiing and tubing

Water skiing, jet skiing, wakeboarding and tubing are all permitted on Lake Moogerah. Please comply with the relevant rules, including:

- Having all the correct safety equipment and knowing how to use it properly
- Your boat should be safe and capable of towing skiers
- The boat driver should be appropriately licensed
- There is at least one responsible observer on board
- Follow the directional signage.

Fishing

You can fish from your boat or paddle craft or along the shore of the designated recreation area. Much of the land surrounding the lake is private property. Accessing private land to fish is not permitted.

Remember the lake is home to an abundance of wildlife. It's very important to ensure that all rubbish, especially fishing line and hooks, are disposed of properly to avoid serious harm to wildlife.

Fishing permits

A fishing permit is required at Lake Moogerah.

The Department of Agriculture and Fisheries controls the fishing rules and regulations in Queensland and administers the Stocked Impoundment Permit Scheme (SIPS).

Please visit daf.qld.gov.au to purchase a SIPS permit or for a list of outlets that sell permits. These permits must be purchased before fishing on the lake.

Swimming

There is a designated swimming area located at AG Muller Park (off Muller Park Road). For your safety, please swim only in the designated area and remember there are no lifeguards on duty.

Tracks and trails

There is a walking/running trail that begins in Fred Haigh Park, and leads over the dam wall into Moogerah Peaks National Park.

The Moogerah Peaks National Park is managed by the Department of National Parks, Sport and Racing (npsr.qld.gov.au).

Camping

There are a number of camping options to choose from at Lake Moogerah. All sites are run by private operators. For all enquiries and bookings please contact the campgrounds directly.

Overnight stays on the water are not permitted. Camping is only permitted in designated camping areas.

Blue-green algae and recreation

Cyanobacteria (commonly known as blue-green algae) are naturally occurring bacteria that live in lakes and waterways. Most of the time algae exist in low numbers, however, under certain conditions algae can grow rapidly, called an algal bloom, and sometimes produce toxins that can harm your health if you swim, boat or fish in algae-affected lakes.

You can check blue-green algae levels on our website at seqwater.com.au/recreation/blue-green-algae-and-recreation

Download our public safety app

Our public safety app combines dam release notifications, dam levels information, recreation, safety and lake closure updates and weather alerts. Search 'Seqwater' on the App Store or Google Play.
