

IT'S TIME TO BE WATERWISE

The combined level of our Water Grid dams is less than 70%.

We are not in drought, but we need to start preparing for the possibility of a drought.

HOW TO BE WATERWISE

- 
- Take a shorter shower
 - Don't leave the tap running when brushing your teeth or shaving
 - Water the garden before 8am or after 4pm
 - Check for and fix any leaks
 - Do full loads in the dishwasher and washing machine
 - Use a pool cover on your pool
