

Seqwater Dam Improvement Program

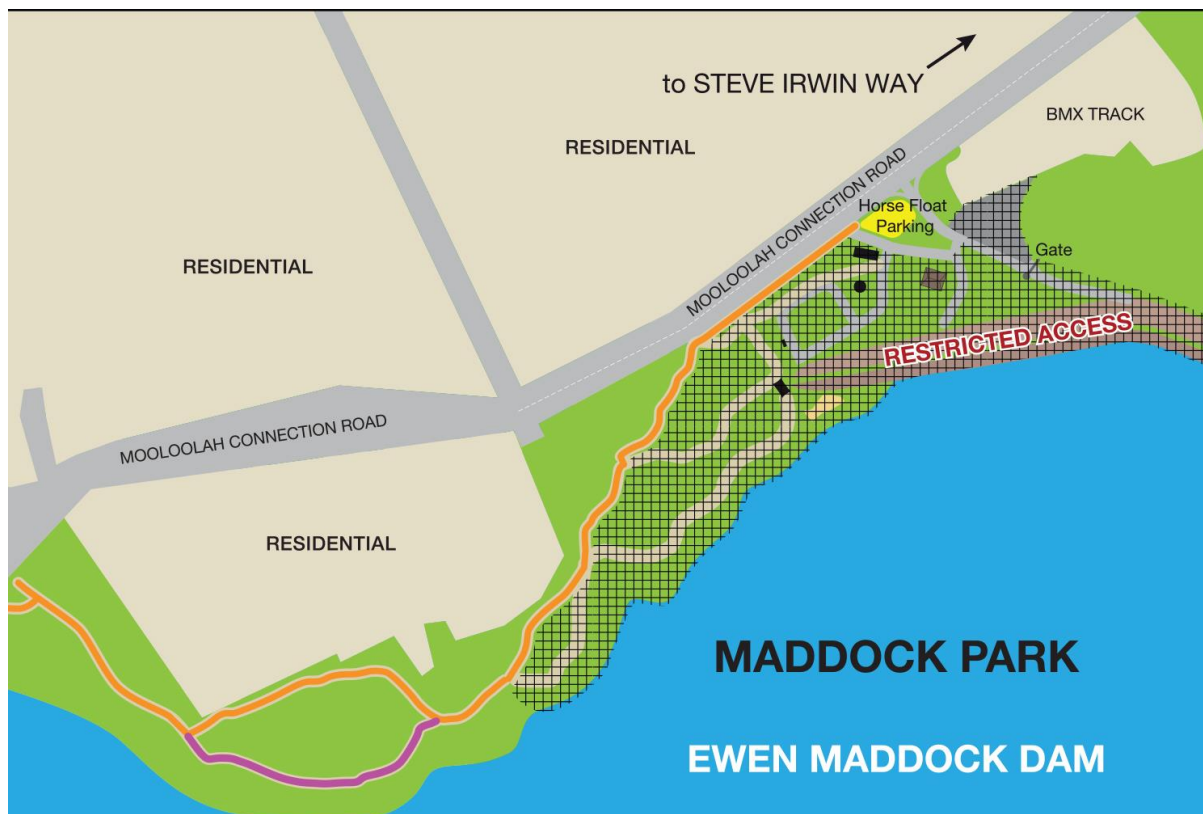

Ewen Maddock Dam

July 2020

What's happening?

As part of the upgrade project, Seqwater will be increasing the size of the existing horse float carparking area by 25% at Maddock Park. From tomorrow, Hall Contracting and its subcontractors will be starting work within this area. To do this work safely, the area will have limited parking access for the rest of the week and will be closed to the public tomorrow, Wednesday 29 July 2020.

The work will include improvements to the existing carpark footprint allowing horse floats users to safely manoeuvre turning circles such as U turns without entering the construction area. The additional space will also increase the number of carparks for multi use trail users and include new carparking, recreation and project information signage, delineation markers and fencing. The existing horse float carparking area is shown in the image below.

[Sign up for e-updates](#)

We will be sending regular e-updates on the progress of the Ewen Maddock Dam Upgrade to keep you informed. This is the best way to get the latest information, so if you know someone who might be interested in this project encourage them to subscribe by clicking [here](#).

Sign up for free dam release alerts

Sign up to our dam release notification service to be notified when Ewen Maddock Dam is spilling. This free service provides subscribers with notifications by email, SMS or recorded messages to telephone landlines when gated dams are releasing water or un-gated dams are spilling. [Register](#) now to get dam alerts or download the [Seqwater app](#) from the App Store or Google Play on your device.
