Fees and charges set under the Seqwater Rural Water Pricing Direction Notice No 1 (2021)

Rural Irrigation Water Pricing for irrigation customers

Rural irrigation water prices apply only in relation to an irrigation service as defined in the Water Act 2000. An irrigation service is defined in Schedule 4 of the *Water Act 2000* as the supply of water or drainage services for irrigation of crops or pastures for commercial gain.

The Queensland Government sets the prices of irrigation water supplied by Seqwater based on recommendations from the Queensland Competition Authority (QCA). The QCA completed its investigation into water prices to apply to Seqwater's irrigation customers from 1 July 2020 to 30 June 2024 in February 2020. The QCA's final recommendations for all irrigation prices are available on its website: <https://www.qca.org.au/project/rural-water/irrigation-price-investigations/>

The 2022-23 base price for Part A, B, C & D fees is the 2021-22 QCA recommended price with a 15% discount applied. More information can be found on the Queensland Government's website here: <https://www.rdmw.qld.gov.au/water/consultations-initiatives/irrigation-pricing-discounts-2021-24>

Notes

1. Charged annually in arrears for zero allocation contracts to cover the administration costs to manage the contract.
2. Usage for Stock & Domestic purposes where the land adjoins a watercourse, lake or spring.
3. Costs associated with undertaking a special read/s generally as part of a sale of property.
4. Costs for design, construction and installation are additional.
5. A transfer adjustment fee is payable where subsidised rural irrigation water is temporarily transferred for non-irrigation usage and is the difference between the subsidised price and the commercial upper bound price.
6. If Seqwater undertakes a Water Allocations Register search, the costs will be passed through to the customer. This charge is set by CITEC and is subject to change.
7. GST inclusive.
