Seqwater Irrigation Pricing Direction Notice (No 1) 2023

Irrigation water prices apply only in relation to an irrigation service. An irrigation service is defined in Schedule 4 of the Water Act 2000 as the supply of water or drainage services for irrigation of crops or pastures for commercial gain.

The Queensland Government sets the prices of irrigation water supplied by Seqwater based on recommendations from the Queensland Competition Authority (QCA). The QCA's final recommendations for irrigation prices for 1 July 2020 to 30 June 2024 are available on its website: <https://www.qca.org.au/project/rural-water/irrigation-price-investigations/>

In March 2023 the Queensland Government issued a new direction notice setting irrigation prices from 1 July 2023 to 30 June 2025. The irrigation prices for 2023-24 includes a 15% discount. More information on the discount can be found here: <https://www.rdmw.qld.gov.au/water/consultations-initiatives/irrigation-pricing-discounts-2021-24>

Notes

1. Charged annually in arrears for zero allocation contracts to cover the administration costs to manage the contract.
2. Usage for Stock & Domestic purposes where the land adjoins a watercourse, lake or spring.
3. Costs associated with undertaking a special read/s generally as part of a sale of property.
4. Costs for design, construction and installation are additional.
5. A transfer adjustment fee is payable where subsidised rural irrigation water is temporarily transferred for non-irrigation usage and is the difference between the subsidised price and the commercial upper bound price.
6. If Seqwater undertakes a Water Allocations Register search, the costs will be passed through to the customer. This charge is set by CITEC and is subject to change.
7. GST inclusive.
