

Proposed Wyaralong Water Treatment Plant Procurement

FEB
2025

Procurement

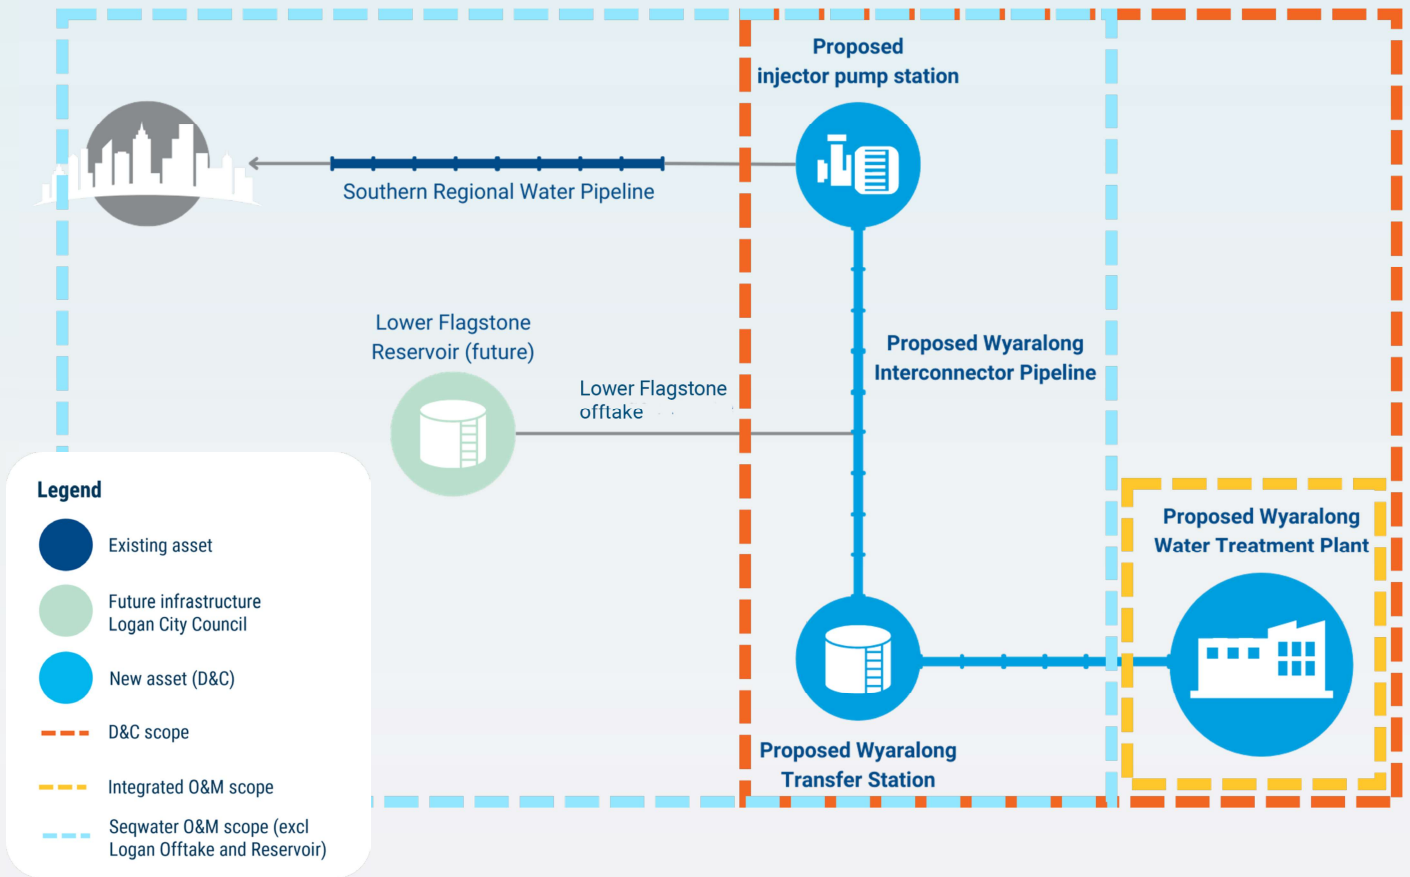

The Wyaralong Water Treatment Plant and Associated Infrastructure Project is classified as a 'Major Project' under the Queensland Procurement Policy 2023. Seqwater will be including requirements for Best Practice Principles and Local Benefits Test in this procurement.

This procurement will be undertaken through a multi-stage procurement, commencing with an open-market Registration of Interest, shortlisting for participation in an Expression of Interest stage to further shortlist to two proponents to participate in an interactive Early Contractor Involvement process.
